

FOR IMMEDIATE RELEASE

360Biz Offers ADA Compliance Reviews

Orange, CALIF. (July 2, 2018) - [360Biz](#), a provider of advanced, personalized websites to help companies meet the competitive challenges of their industries, has added comprehensive ADA compliance reviews to its end-to-end suite of online services, including hosting, security, GDPR compliance, and privacy protection.

“ADA-compliance stipulates that websites allow everyone – even those with visual, auditory, learning or physical impairments – to experience the full range of services and experience provided. As more functions move online, the need to serve these citizens with an accessible website becomes more crucial,” said Ron Zayas, co-founder of 360Biz. “No one should ever feel unwelcome.”

360’s ADA experts will conduct a thorough review of every aspect of a company’s website and online presence, and meet with them to review the results, and provide guidance on how to spot and fix common accessibility issues, and train content creators for ongoing governance.

The company also offers a maintenance/monitoring service that regularly evaluates websites so that any subsequent changes/updates will be checked for compliance.

“Every website should be fully functional and usable for every person that visits,” Zayas said.
